FRONT LINE

General Staff, 26 Sep: 221 combat clashes, up from 205 the day before. Russian fires: 90 airstrikes dropping 289 guided bombs, 10,489 kamikaze drones, 2,729 shellings including 26 MLRS salvoes. Claimed Russian losses for the day: 1,690 personnel, 8 tanks, 57 artillery systems, 4 air defence systems and 1,826 UAVs.

Per-axis counts in the 08:00 report: Kostiantynivka 26 and Pokrovsk 26 the hottest, then Lyman 12, Huliaipole 6, Sloviansk 5, South Slobozhanshchyna 4, Kupiansk 3, Oleksandrivka 2, Orikhiv 1, Kramatorsk 1, North Slobozhanshchyna and Kursk 1. No assaults on the Prydniprovsk axis. Ukrainian aviation, missile and artillery units struck four command posts and UAV control points, two artillery systems and four logistics targets.

ISW (26 Sep assessment): Ukrainian forces recently advanced east of Sloviansk, clearing a Russian position in eastern Mykolaivka, and in western Zaporizhzhia oblast, where they have cleared Novodanylivka and have blocked up to three Russian groups at the penal colony in Mala Tokmachka. Russian forces advanced in western Kostiantynivka. ISW judges that Ukraine's 2026 battlefield successes may be pushing Putin to rely on the winter long-range strike campaign, which depends on jet-powered Geran drones at scale. DeepState, 27 Sep: a Russian advance near Kalenyky, Kramatorsk district. ^{28,29,30,31,32,33}

UKRAINIAN LONG-RANGE STRIKES

General Staff, 27 Sep: on 26 Sep and overnight Ukrainian forces struck a storage, preparation and launch site for strike drones in occupied Donetsk, ammunition depots at Krepskyi and Luhansk, a logistics depot in Rovenky and a fuel and lubricants depot in Novoamvrosiivske in Donetsk oblast.

Confirmed on 26 Sep, from the night before the window: the Ilsky refinery in Krasnodar Krai, capacity about 6.6 million tonnes a year, had three primary units and its tank farm damaged and suspended operations. The Azov Optical-Mechanical Plant in Rostov oblast, a supplier to Tactical Missiles Corporation, had equipment in five buildings damaged (General Staff).

Russian MoD claims 96 Ukrainian drones destroyed between 20:00 and 08:00 Moscow time over Belgorod and Kursk oblasts, Crimea and the Black Sea, down from a claimed 645 the night before. All Russian figures are claims. ^{34,35,36,37}

WATCH LIST

- Winter strike campaign: ISW flags jet-powered Shaheds at scale as the pivot of Russia's plan; Zelensky counts 2,730-plus launched in September.
- UNGA follow-up: Trump's 'make a deal' line and the Wadephul-Lavrov meeting. Watch for any Moscow response.
